ThinkSmart Cam

ENABLE TRUE VIDEO COLLABORATION IN THE OFFICE AND BEYOND WITH THIS ENTERPRISE-GRADE AI SMART CAMERA

When paired with a compute, such as ThinkSmart Hub or ThinkSmart Edition Tiny, or when used alone as a standard plug-and-play device, the new ThinkSmart Cam creates immersive, productive spaces where everyone can be fully engaged and collaborative regardless of where they are located.

IDEAL ROOM SIZE

Small offices to large conference rooms

FIELD OF VIEW

100° Horizontal/68° Vertical/125° Diagonal

SUPPORT RESOLUTIONS

Up to 4K at 30fps and 1080p at 60fps

MOUNTING

Standalone, wall, or TV mounting options

CERTIFICATIONS

Microsoft Teams Rooms and Zoom Rooms

CAPTURES REALITY

ThinkSmart Cam gives collaborators the feeling of being in the room together thanks to its wide field of view coupled with high resolution and frame rates that eliminate distracting lag and distortion. It also delivers higher contrast, vivid colors, and brighter images in low-light environments.

EAGER TO LEARN

AI features* help ThinkSmart Cam provide a more natural video collaboration conference experience. From auto-zoom and auto-framing to active speaker tracking and whiteboard awareness, ThinkSmart Cam follows the conversation and facilitates interactivity for more productive meetings.

FITS RIGHT IN

From its compact, lightweight design to its certified compatibility with Microsoft Teams Rooms and Zoom Rooms, ThinkSmart Cam fits seamlessly into any modern office or home office environment. It can easily be set up as a standalone device or mounted to a wall or TV.

EASY TO MANAGE

When integrated with ThinkSmart Manager*, ThinkSmart Cam can be centrally managed and customized to meet the needs of the users or room. Users can also download a configuration app* when ThinkSmart Cam is not connected to a ThinkSmart compute with ThinkSmart Manager.

ThinkSmart MANAGER

No matter where your workforce is located, Lenovo ThinkSmart technology helps teams connect for more successful communication and collaboration.

SMARTER MEETINGS START WITH THINKSMART.

*AI features are controlled via ThinkSmart Manager, which is available with the purchase of a ThinkSmart compute, such as ThinkSmart Hub or ThinkSmart Edition Tiny. When used as a standalone device, a configuration app is available via download in ThinkSmart Manager. A ThinkSmart compute is not required to set up a ThinkSmart Manager account. Whiteboard awareness will be available at ship support. People counting will be available in Spring 2021 (v2.0) with ThinkSmart Manager.
